Interaction Designer

Harland Clarke

November 2017 — December 2019 (1 year 2 months)

- ✓ Define user interaction for our web applications across all brands and devices, using input from the usability analyst, user experience designer and stakeholders.
- ✓ Create design flows, wireframes, design interaction elements, interactive prototypes, recommending the best interactive tools/solutions for the job, and handing off interactive prototypes and pattern library assets to the development team.
- ✓ Conceptualize potential solutions based on complex technology environments landing in a variety of form factors (phone, tablet, desktop).
- ✓ Iterate and conceptualize multiple solutions before moving forward on a direction.
- ✓ Ability to transform what you design into HTML/CSS/JS prototypes.

UI/UX Designer (Contract)

Wahez

August 2017 — December 2017 (3 months)

- ✓ Define the UX and UI vision for Wahez.
- ✓ Assist in leading brainstorming meetings for product requirements of every feature with Product Manager and Owner.
- ✓ Responsible for taking requirements and create responsive wireframes and page flows to review with the team.

UI/UX Designer

TripChamp

April 2016 — May 2017 (11 months)

- ✓ Lead the overall look and feel of the product.
- ✓ Create UI style guide for development.
- ✓ Code landing pages and advertisement websites.
- ✓ Wire-frame and mock-up screens for development.
- ✓ Create prototypes for investment meetings.

Front End Developer

Kasasa

July 2012 - Oct 2013 (1 year 4 months)

- ✓ Utilized Sass framework to manage and style websites for community financial institutions.
- ✓ Created responsive landing pages.
- ✓ In charge of producing and managing 200 micro-sites.
- ✓ Lead developer for compliance changes on over 120 micro-sites.
- ✓ Member of a team That made updates and fixes to over 300 websites.
